

PODIASPRAY

The new generation of NWT spray micromotors

A NEW GENERATION

More compact. More intuitive. Still professional.

Podiaspray has been redesigned to improve integration within the practice, enhance portability and provide immediate access to essential functions.

2,7 kg
lightweight

≤ 47 dB
maximum sound level

35%
more compact

CHOOSING A MODEL STARTS WITH THE INSTRUMENT

3 handpiece designs to suit different practices.

PODIASPRAY ONE

with PODODENT PDL 40

Length : 13.5cm
Diameter : 2,5cm
Weight : 94g
Speed : from 5.000 to 40.000 rpm
Light : ring light LED
Clamping system : push / pull

PODIASPRAY PLUS

with PODODENT PLUS (L)

Length : 15.5cm
Diameter : 2,5cm
Weight : 124g
Speed : from 5,000 to 40,000 rpm
Light : with or without double LED glass road
Clamping system : rotation

PODIASPRAY NTX

with P65L and NTX motor

Length : 12.2cm
Diameter : 2,2cm
Weight : 153g
Speed : from 5,000 to 40,000 rpm
Light : with single LED glass road
Clamping system : rotation

The top speed is the same; the choice mainly comes down to ergonomics, weight, lighting and the clamping system.
